“ Growing up as the youngest of three siblings, I was blessed to have two “big sisters” who loved me and looked out for me as their little brother, especially during my formative years. We loved our sister Leilani very much. She was a loving and caring mother, a friend in times of need, and a devoted companion to her husband Richard. She had compassion for people and a love of animals. What a happy day it will be when Leilani is “awakened from sleep” and reunited with her family and loved ones in the resurrection. (John 11:11-45)

“ Throughout our life, my sister was always there, laughing during the good times and supporting each other during the bad. A little bit of her will always live in me and even though I may not have her here, we'll always have each other. I'll miss her beautiful smile and sweet loving nature. Rest In Peace Lonnie.
